

Item 7113588

The Loke 75/110 Vertical floor drain has a dual vertical outlet with dimensions of 75mm and 110mm; as well as three extra inlets. Only one of the extra inlets should be used. The floor drain is suitable for installation in concrete floors or wooden joists. The Loke floor drain comes complete with a removable water trap with splash guard, clamping ring and plastic grate. It also comes with a protective cover that is intended to prevent any concrete or debris from entering the drain during installation. When installing the Loke floor drain with the Purus Plate (2014 model), the extension ring should not be used.

The automatic self-adjusting clamping ring is used for both waterproofing membranes and vinyl flooring with a thickness of 1.5mm to 2mm.

Specifications

Item Number	7113588
Dimension	Ø75/Ø110 mm
Floor Construction	Concrete/Wood
Floor Covering	Concrete/Resin/Tiles/Vinyl
Function	Bottom outlet
Item Color	White
Material	PP

Pressure Flow Temp	1,4 l/s
Size	Ø150 mm
