

Item 7152480

The Sigyn 75 R floor drain has a 75mm side outlet and is for installation in wooden or concrete joists. The Sigyn floor drain comes complete with a removable stainless steel NOOD water trap, clamping ring and stainless steel grate. The NOOD water trap is a mechanical trap which closes when there is no water present, thus preventing any foul air from escaping through the drain. The floor drain also comes with a protective cover that is intended to prevent any concrete or debris from installation from entering the drain.

The automatic clamping ring is used for both sealing membrane and vinyl flooring. It is a self-adjusting clamping ring for vinyl flooring with a thickness of 1,5 mm to 2 mm.
