

Item 8075409

Plastic PUM waste bend for wash basins with 1¼" / 1½" connector for 40mm diameter outlet pipes. The odour barrier (membrane) is integrated in the waste bend and is positioned within the pipe for easy cleaning and maintenance. The PUM replaces the usual bottle trap, saving space in the installation area. The PUM waste bend for wash basins is suitable for installation with standard vertical wastes.

Specifications

Item Number	8075409
