PURUS

Item 52605

The plastic PUM waste bend $1\frac{1}{4}$ " / $1\frac{1}{2}$ " is a combination of a waste and a water trap for 32mm/40mm diameter outlet pipes. The odour barrier (membrane) is integrated in the waste bend for easy cleaning and maintenance. The PUM replaces the usual bottle trap, saving space in the installation area. It is suitable for installation with standard vertical wastes.

Specifications

Item	Number	52605

Function For washbasin/bathtub

Item Color White

Material PP, Silicone

Pressure Flow 0,6 l/s Temp

Version Odour trap
