

Item 855659

Purus channel spalte module T-kors 75 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is intended for concrete, epoxy and tile floors without a waterproofing membrane. Purus channel spalte module is only 20 mm wide, has a built-in fall of which the height is 75 mm and length 500×500 mm. Purus channel spalte module is delivered with gasket and screw connection for installation but needs to be supplemented with grid depending on the environment and outlet house. The total height with screw joints is 124 mm.

Item 855660

Purus channel spalte module T-kors 90 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is intended for concrete, epoxy and tile floors without a waterproofing membrane. Purus channel spalte module is only 20 mm wide, has a built-in fall of which the height is 90 mm and length 500×500 mm. Purus channel spalte module is delivered with gasket and screw connection for installation but needs to be supplemented with grid depending on the environment and outlet house. The total height with screw joints is 124 mm.

Item 855661

Purus channel spalte module T-kors 105 is a floor channel made of acid-resistant stainless steel for installation in concrete. The floor channel is intended for concrete, epoxy and tile floors without a

waterproofing membrane. Purus channel spalte module is only 20 mm wide, has a built-in fall of which the height is 105 mm and length 500×500 mm. Purus channel spalte module is delivered with gasket and screw connection for installation but needs to be supplemented with grid depending on the environment and outlet house. The total height with screw joints is 124 mm.

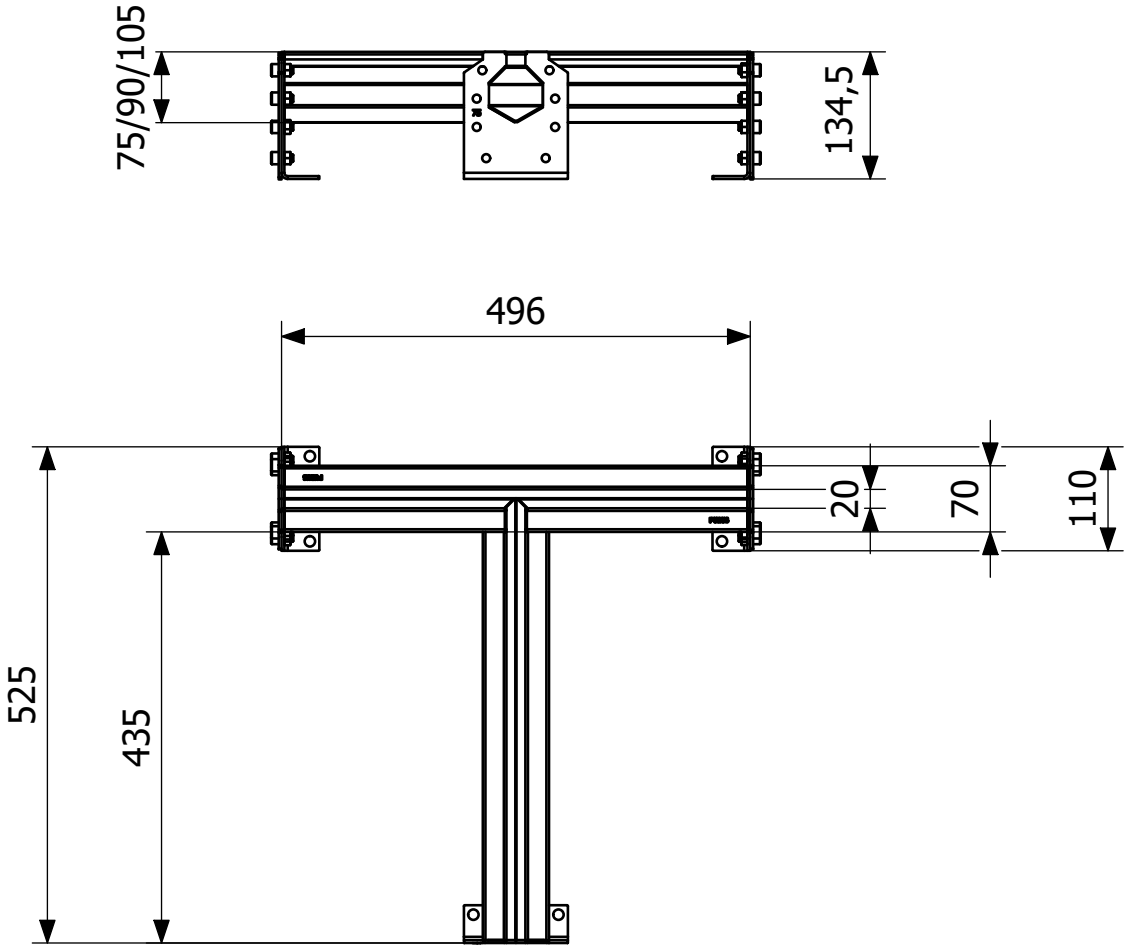

Specifications

Item Number	855659
Floor Construction	Concrete flooring
Floor Covering	Concrete/Resin/Tiles
Item Color	Stainless
Material	Acid-resistant stainless steel 1.4404
Size	500×500 mm
Surface	Pickled
Version	20 mm gap, without grate

Item Number	855660
