PURUS

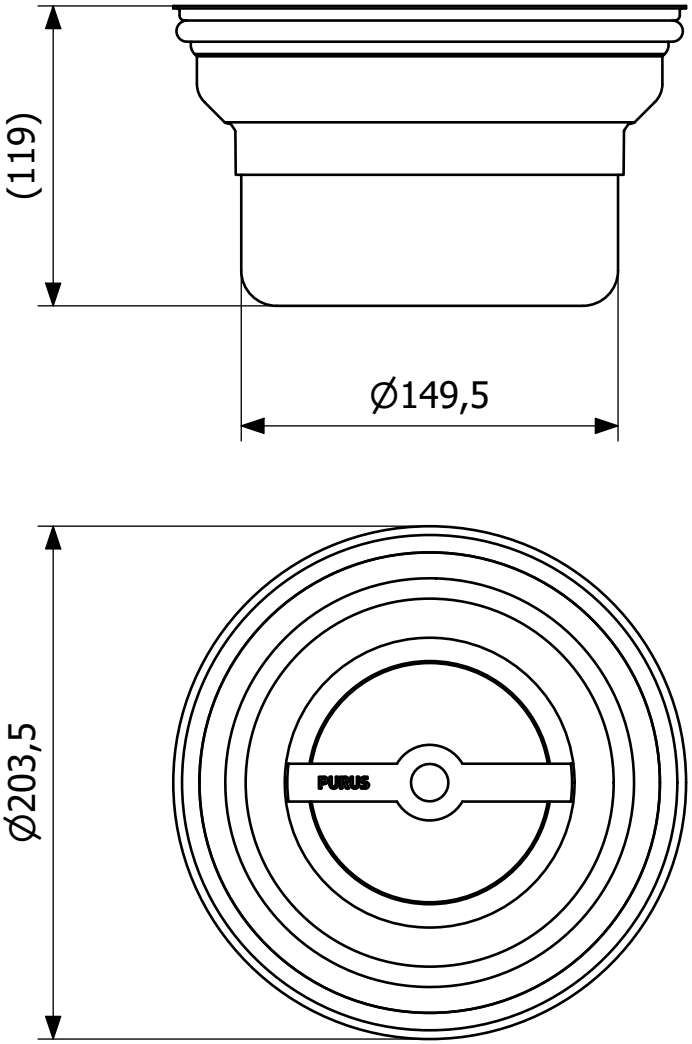

Item 123268

Stainless steel NOOD water trap for most of Purus' stainless steel 220mm diameter floor gullies and some stainless steel channels. The NOOD no-odour water trap is a mechanical odour stop designed to close when there is no water flow, thus preventing odours from escaping through the drain, even when dried out. It is therefore suitable for environments which have little or no water supply for longer periods of time. When water is flowing through, the water trap opens automatically. It can be removed from the outlet gully for easy cleaning and maintenance.

Specifications

Item Number	123268
Dimension	Ø220 mm
Function	Odour trap
Item Color	Stainless
Material	Acid-resistant stainless steel 1.4404
Surface	Pickled
Version	With o-ring seal
